

Privacy Statement

Florida National University (“FNU,” “us” or “we”) recognizes the importance of privacy. In this Privacy Statement, we disclose our practices with respect to the Personal Information (defined below) that we collect about individuals, including its use and confidentiality.

What information do we collect?

FNU collects Personal Information, defined as information that identifies, relates to, describes, references, is capable of being associated with, a particular consumer or device. FNU collects or may collect the following categories of Personal Information:

Category	Examples	Collected (Yes or No)
A. Identifiers	A real name, alias, postal address, unique personal identifier, online identifier, Internet Protocol address, email address, account name, Social Security number, driver’s license number, passport number, or other similar identifiers.	Yes
B. Personal Information categories listed in the California Customer Records statute (Cal. Civ. Code § 1798.80(e)).	A name, signature, Social Security number, physical characteristics or description address, telephone number, passport number, driver’s license or state identification card number, insurance policy number, education, employment, employment history, bank account number, credit card number, debit card number, or any other financial information, medical information, or health insurance information. Some Personal Information included in this category may overlap with the other categories.	Yes
C. Protected classification characteristics	Age (40 years or older), race, color, ancestry, national origin, citizenship, religion or creed, marital status, medical condition, physical or mental disability, sex (including gender, gender identity, gender expression, pregnancy or childbirth and related medical conditions), sexual orientation, veteran or military status, genetic information (including familial genetic information).	Yes
D. Commercial information.	Records of personal property, products or services purchased, obtained, or considered, or other purchasing or consuming histories or tendencies.	Yes

E. Biometric information

Genetic, physiological, behavioral, and biological characteristics, or activity patterns used to extract a template or other identifier or identifying information, such as, fingerprints, faceprints, and voiceprints, iris or retina scans, keystroke, gait, other physical patterns,

- For testing, research, analysis and product development.
-
